

Mystery Story

Detective from Poland : Zuzanna Chlebek

Detective from France : Francesco Lefebvre

It was 2nd of January, Zuzanna Chlebek picked up the phone from London. An old man said about a serial killer who has been killing animals.

**Chlebek put the shoes on
and called for a taxi.**

She went to a plane and flew to London.

While she was flying, she had a really big problem while flying to London. There was almost a plane crash, so Chlebek took a parachute and landed in a small old village.

**She took a beautiful red Ferrari and
went to London.**

**Meanwhile,
Francesco Lefevre
got a phone call, the
same as Chlebek,
and arrived to
London without
trouble.**

Detectives went to MI6 headquarters. They told our detectives about a situation that happened few days ago.

MI6 found a famous snail runner in a bloody, death state, at the abandoned school in a pencil case. It could be a serial killer but ml6 also said it could be suicide.

The two detectives arrived at the crime scene. A legist told the detectives that they have DNA from the criminal. They put DNA in the computer system.

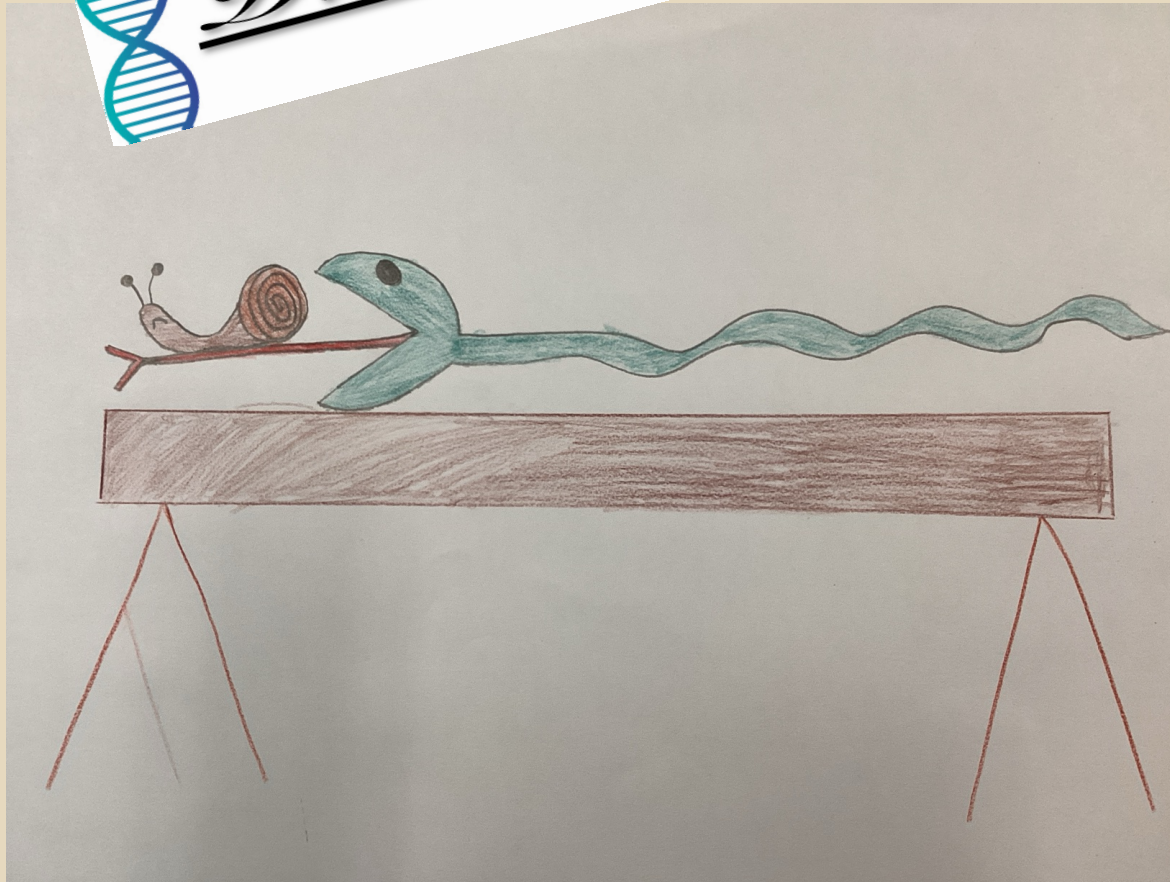

Meanwhile the detectives went to search for information.

Zuzanna went to an old woman who told her :

« I have seen the culprit!! He or she, I couldn't see the suspect's face, was there! I can only say that the person is slim and very tall...but the suspect also doesn't have a left arm!!! »

Francesco discovered that the suspect was a woman...a young girl...she has long black hair and she left the crime scene in a hurry on a big red bus.

After two days, the DNA test arrived which turned out to be a snake DNA.

Detectives were shocked. They found another witness who told them what happened. It was an owl that saw all of it because she was sitting on a tree.

She said that on the day of the murder, there was a fancy-dress party taking place.

She remembered that she saw kids in costumes, including fox kids dressed up as bananas who were playing rugby.

She also noticed a lady who was walking strangely. Something was sticking out of her mouth. It looked like a spoon.

**Detectives, after
collecting
information from
witnesses and after
analyzing the DNA
found the culprit!**

It turned out that the tall woman was a snake runner (the snail's opponent) who was jealous of the snail's richness. He dressed up as a lady and killed the snail out of jealousy.

Zuzanna and Francesco approached the house of the criminal. They entered and the snake was here. He ran out of his house. The detectives ran after him for a long moment. Finally they caught him in a dead end street. They arrested the snake and took him to prison.

The End
